DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicant's representative on Devon A. Rolf on 11/17/04.

The application has been amended as follows:

In the claims:

Claim 9 has been canceled.

In Claim 15, line 14, --internal patch-- has been inserted before "antenna".

Claim 16 has been canceled.

Allowable Subject Matter

1. Claims 1-8, 10-15, 17-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 12, 15, 24, 29 and 30, the applicant's particular system and associated method comprising [as in claims 1 and 29, a first leg positioned away from a top of the housing and attached to a first shock absorbing member, and a second leg positioned away from the top of the housing and attached to the first shock absorbing member and an adhesive; as in claim 12 and 30 a fluid seal disposed in front of the periphery of and around an outer edge of

the touch panel; as in claims 15 and 24, a patch antenna]... in combination with the other limitations of the claims, was not disclosed by, would not have been obvious over, nor would have been fairly suggested by the prior art of record.

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

The closest prior art, White et al (US 6532152), Maeda et al (US 6356259), and Shimada et al (US 20020152025) in combination disclose [a similar hand-held electronic device]. White et al (US 6532152), Maeda et al (US 6356259), and Shimada et al (US 20020152025) do not disclose [a first leg positioned away from a top of the housing and attached to a first shock absorbing member; a second leg positioned away from the top of the housing and attached to the first shock absorbing member and an adhesive; a patch antenna; and a fluid seal disposed in front of the periphery of and around an outer edge of the touch panel]. Thus, the closest prior art fails to anticipate or render Applicant's limitations above obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
